**Light yellow to red water shall occur during flushing from disruption of iron deposits.**

It is recommended that you avoid using your laundry facilities during the scheduled flushing hours due to the possibility of rust staining your clothes. Please check a cold water faucet for discoloration prior to doing laundry.

If you notice a discoloration of the water after flushing operations have ceased please run the cold water from a faucet until it clears from 5 to 10 minutes. If rust colored water continues please contact the City of Peshtigo at (715) 582-3041 with the address location.
